8-13-13	All brake shoes & brake rigging, cables	adjustments all okay.	
8-13-13	Air compressor, air hoses, pressure settings, brake actuator cans -	all checked - okay.	
8-20-13	Gas tanks -	about 20 gals in each tank after return from Dwango & Silverton.	
Nov 2013	Serviced front truck	Two bottle jacks used with heavy timber to raise front end. Bolts on left rear wheel were loosened so slings could clear the frame. (Note: raising front end too high can pinch the vertical exhaust pipe between the top of the cab & front wall of rear section.)	written 5-17-14 by Lew Mathis
